Wireless Keypad RTC02

Baseline

The Wireless Keypad RTC02 is designed for permanent installation. Because it is weatherproof it can be used indoors as well as outdoors.

Because cabling is not necessary the installation and implementation are very simple.

Access is granted by entering a four digit code. An illuminated keypad allows the use in the dark.

Up to three different codes can be saved and changed as often as required.

RTC02-XX04M-01

Technical Details

Coding	factory coding with over 70 million options Hand-Transmitter code can be learned
Channels	4 (3 Code-Channels, 1 Light-Channel)
Range	up to 150 m under favourable open field conditions
Power Supply	2x 3-V-battery, CR2032
Operation Indicator	LED
Degree of Protection	IP54
Operating Temperature	-20 °C to +60 °C
Dimensions	70 x 100 x 30 mm
Weight	120 g (including battery)

Accessories

ACC-DIV-01

Scope of Delivery

- Wireless Keypad
- Mounting Plate
- Mounting Material
- Programming Connector
- Operating Manual

Accessories (optional)

- Key Lock
- Battery

Models

Product Key	Description	Frequency
on request	Wireless Keypad	315 MHz
RTC02-4104M-01	Wireless Keypad	433,92 MHz
RTC02-5004M-01	Wireless Keypad	868,30 MHz
ACC-DIV-01	Key Lock	
ACC-BAT-05	Battery CR2032
