

Models

- 1) **APT02CCserv-01** Easywave CCserv
- 2) **RX09E5001-02** USB-Transceiver

Technical Data

APT02 Easywave CCserv

Power consumption: average 5.0 W
 Interfaces: - WLAN 802,11 b/g/n protocol
 - LAN connection (up to 1000 MBit/s)
 - 2x USB 2.0
 Power supply: 100-240 V AC, 50-60 Hz, max. 20 W
 Dimensions: 95 x 65 x 48,5 mm
 Weight: 182 g

RX09 USB-Transceiver

Frequency: 868.30 MHz
 Radiated power: 3.85 mW
 Modulation: FSK
 Coding: Easywave
 Power supply: USB-Port
 Operating temperature: 0° C to +40° C
 Range: open field: approx. 150 m
 buildings: approx. 30 m
 Dimensions: 24 x 8 x 75 mm
 Weight: 13 g

Scope of Delivery

- APT02 CCserv
- RX09 USB-Transceiver
- Ethernet cable (CAT 5)
- Plug for 230V power outlets

Intended Use

Use the APT02 Control Center Set in connection with Easywave radio transmitters and Easywave radio receivers.
 The manufacturer shall not be liable for any damage caused by improper or non-defined use.

Safety Advices

Carefully read through these instructions before connecting and operating the unit!

Note also the operating instructions for the radio receiver and the radio transmitter and also the operating instructions of the connected devices.

Do not make any unauthorized alterations or modifications to the unit!

Have faulty units checked by the manufacturer!

Function

With the Easywave CCset and the Easywave Control Center app (CCapp) for
 - iOS from Version 8,
 - Android from 4.4,
 Easywave products can be controlled conveniently and comfortable as well as visualized by a smart phone or a tablet.
 This can be done locally in the WLAN of the server or in the home network if the server is integrated in the home network, or it can be done remotely via Internet, in case that the remote function is enabled.
 The USB-Transceiver RX09 is used to receive and send Easywave telegrams.
 The RX09 has 64 unambiguous transmit codes each with four button codes (A/B/C/D) and is able to control 64 devices independently.

Initial Set-up

1. Connect Easywave CCserv

Plug the 230V plug onto the server and the RX09 into one of the USB ports.

Plug the server into a mains socket. After about 30 seconds the server is ready for use.

2.A Establish a direct connection between Easywave CCserv and a smartphone / tablet (without home network)

The wireless network name of the server is:

EasywaveCCserv <serial number>

The Password is:

E@sy1W@ve2Serv

or

2.B Establish a connection between Easywave CCserv and a smartphone/ tablet in a existing home network

Connect the server via a network cable to the local network or the network port of your DSL router.

3. Prepare the Easywave products for operation

Read carefully the operating instructions of each Easywave radio transmitter and Easywave radio receiver.

4. Start the Easywave CCapp

The login data for the initial login are:

(User) name: Admin

Password: Admin

5. Program the Control Center

Now you can create rooms, equipment and scenes and combine them with the Easywave products.

Troubleshooting

The radio receiver does not react:

- Check that the wireless connection at the installation site is not impaired between the USB-Transceiver and the radio control.
- Re-register the transmission code with the wireless control.
- Other wireless devices using the same frequency or operating in direct proximity may interfere with the device.

The USB-Transceiver does not react to the radio transmitter :

- Make sure that the USB-Transceiver is within range of the transmitter.
- Exchange the battery of the transmitter if necessary.

Help with network problems:

- Change settings via web browser with the following login details:

URL: <https://192.168.x.y:10000> *)

User: Admin

Password: S&\$H%@S

*) Did you specify a different IP address, use that.

Disposal

Waste electrical products should not be disposed of with household waste!

Dispose the waste product via a collection point for electronic scrap or via your specialist dealer.

Put the packaging material into the recycling bins for cardboard, paper and plastics.

Warranty

We will remedy defects on the device based on material or production errors within the statutory warranty period or exchange the device.

Any unauthorized tampering with, or modifications to, the product shall render this warranty null and void.

Conformity

Hereby, ELDAT GmbH declares that the radio equipment type APT02 is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: www.eldat.de

Customer Service

If, despite correct handling, faults or malfunctions occur or if the product was damaged, please contact your retailer or the manufacturer.
